Profile

As a full stack developer with extensive experience building full-featured web applications using the MERN stack. I'm working with MongoDB, Express, React, Next Js and Node.js, I have the technical skills needed to develop high-quality web applications from the ground up. I am proficient in all aspects of the development process, from designing database schemas and RESTful APIs to building responsive user interfaces with React. My experience also includes deploying and maintaining production apps.

Education

Software Engineering

Arbaminch University

05/2019 – present

Arbaminch, Ethiopia

Skills

Html, Css & Javascript

Tailwind

Chakra — Reacts built in framework that enables to build user Interfaces
